

STATIONARY SCREEN WITH A HIDDEN ALUMINIUM PROFILE TENSION-FRAME, FULL VISION PROJECTION

Simply white, perfectly flat and clean screen, satisfying the requirements and tastes of the most demanding client.

This pure design product is very popular for flying screen applications but features numerous different mounting solutions.

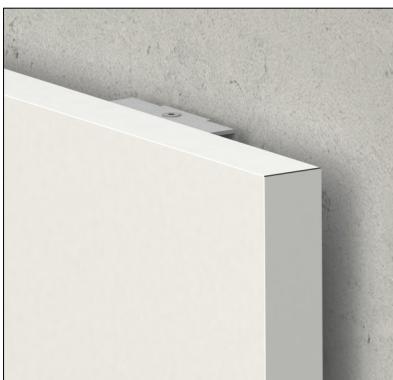

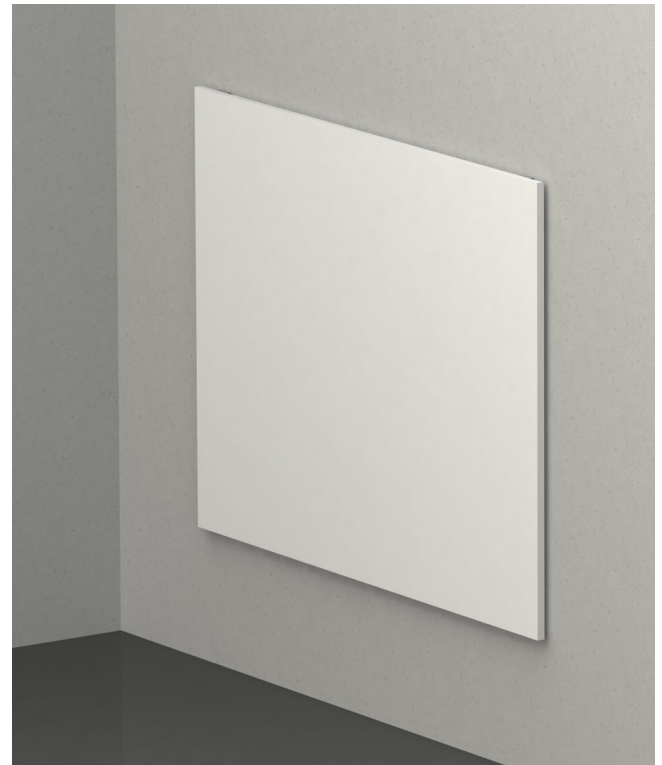

Light aluminium construction.

The frame system consists of separate aluminium segments, which are joined by means of connectors and are secured by screws.

Tensioning of the screen surface by press studs on the reverse of the frame, that means the frame and the tension system is not visible to the viewer.

The counterparts in the profile for the press studs at the screen surface are fix positioned on the frame.

Customized sizes, different types of screens surfaces on request.

Hidden aluminium profile - tension system is not visible

Tensioning of the screen surface by press studs on the reverse of the frame

The frame system consists of separate aluminium segments
