

THE STATIONARY SPRING-ROLLER TYPE  
PROJECTION SCREEN

Affordable rollable screen, very good Price/  
Performance ratio.

The housing of the projection screen consists of an  
octagonal sheet steel case with plastic end caps in  
white colour, RAL 9016.

Integrated suspension points on the right and left  
end of the housing for a direct mounting on the  
wall or ceiling.

The projection screen features a fully developed  
spring-roller mechanism.

Roller with readjusting spring and stopping device  
approx. every 13 cm.

Black stripes on sides of the screen surface.

Black stripes on sides of the screen  
surface

Housing - octagonal sheet steel  
case

Integrated suspension points  
on the right and left side

Mod	Overall / Image size in cm (W x H)	Format	Code no.	Weight gross/net in kg	Package size in cm	Screen surface
